

Maritim Catering

Central Garage

The Central Garage is a museum celebrating the history of the automobile. It is also a fabulous location for private celebrations, special company events, incentives, conferences and commercial presentations. The Central Garage is a fascinating example of early '90s industrial architecture that has up to 670 sqm of space available for events of all kinds. The technical equipment installed is of the highest standard and the catering infrastructure is excellent. The automotive backdrop of valuable collectables lends every gathering a particular flair.

Suitable events

- Product presentations
- Conferences, congresses
- Receptions
- Galas and dinner events
- Show events

Total capacity

A total of three areas are available but because the usable space is restricted by varying exhibition commitments, exact specifications are subject to inquiry.
