Eisenbahnmuseum Darmstadt

For over three decades now, a group of dedicated enthusiasts have been voluntarily operating and expanding the comprehensive railway museum located in Darmstadt-Kranichstein's former locomotive depot. The award-winning, non-profit charitable organisation that backs the museum is staffed by specialists recognised for their expertise in historical railway preservation. The collection already encompasses more than 40 locomotives and railcars, over 150 carriages and an impressive range of interesting related paraphernalia. The unique facility affords guests the possibility of celebrating in the museum or even the engine shed with an expansive outdoor area suitable for up to 200 people. In addition to the rustic ambience amidst the historical locomotives, guided tours and train trips between Darmstadt's central station and the museum are possible.
